

AIRCRAFT USED FOR LAW ENFORCEMENT SINCE 1914

The listing below includes those aircraft types associated with airborne law enforcement since 1914. In some instances this refers to one use in isolation in others an alleged and recorded in a public document but a use not subsequently proven. See the entry for the Blackburn Botha. We can be certain it is spurious but it is in a public record and has therefore been included. This list should be taken as a guide and/or a basis for further research.

Manufacturer	Model	Country of use
ACT	Lancair	Philippines,
Airships [all types]	R series [R33 etc.]	United Kingdom,
	Skyship	France, Japan, Trinidad & Tobago, United Kingdom, United States,
